

A38X Distributions

A distribution is an operating system, usually based on Linux. It includes the Linux kernel, drivers, and software packages. It often has a package management system to install new packages.

Below is an overview of all available distributions for the Marvell Armada A38x Series

Only Yocto and Debian is supported by Solidrun - all other Distributions are community images.

Overview

ArchLinux
Buildroot
Debian
FreeBSD
OpenWRT
Yocto
