## Background

SolidRun will be transitioning the HummingBoard Base/PRO carrier-board from Rev 3.5 to Rev 3.6

## Dear customer

We are contacting all customers who - during the past twenty-four (24) months - have purchased one or more of SolidRun Ltd. products affected by this discontinuation. We would like to inquire if you will have any continuing requirements for the current revision in the future.

HummingBoard Base (SKU: SRHBCBE000CV35) Rev 3.5 Last Time Buy is June 31<sup>st</sup>, 2017

HummingBoard Pro (SKU: SRHBCPE000CV35) Rev 3.5 Last Time Buy is June 31<sup>st</sup>, 2017

HummingBoard Base (SKU: SRHBCBE000CV36) Rev 3.6 will be available starting June 11<sup>th</sup>, 2017 on our online store at:

<https://www.solid-run.com/product/hummingboard-carrier-base/>

HummingBoard Pro (SKU: SRHBCBE000CV36) Rev 3.6 will be available starting July 11<sup>th</sup>, 2017 on our online store at:

<https://www.solid-run.com/product/hummingboard-carrier-pro/#configuration>

This notification period is per SolidRun Ltd. standard process.

## Affected SKUs

The impacted SKUs are all of the SKUs for HummingBoard Base/PRO family. Please see detailed information below on the changes of the SKUs.

EOL Product		Replacement Product	
SKU	Description	SKU	Description
SRHBCBE000CV35	HummingBoard Base No eMMC Com. Temp R3.5	SRHBCBE000CV36	HummingBoard Base No eMMC Com. Temp R3.6
SRHBCPE000CV35	HummingBoard Pro No eMMC Com. Temp R3.5	SRHBCPE000CV36	HummingBoard Pro No eMMC Com. Temp R3.6

## Motives

The motives for this product revision are bug fixes and improvements.

## Mechanical

No mechanical changes have been made to the HummingBoard Base/PRO carrier-board.

## Electrical

HummingBoard Base/PRO carrier-board Rev-3.6 addresses a bug where the SGT15000 audio codec (found in HummingBoard PRO version only) might hang the I2C1 bus. The 3.6 revision update prevents the bus hang.

HummingBoard Base/PRO carrier-board Rev-3.6 enhances RTC device battery switchover when disconnected from wall plug or losing main power.

## Software

No software changes are required when switching to the new HummingBoard Base/PRO carrier-board revision 3.6
