

CEx7 A8040

End of Life Announcement

Dear Customer,

We hereby inform you that on **April 7th 2019** we intend to discontinue the development, production and supply of *CEx7 A8040*. Due to a change in the projected product strategy by Marvell Semiconductors, SolidRun has decided to alter its product strategy and so discontinue CEx7 A8040, instead focusing on development of other products.

Customers who are interested in the Armada 8K family, are welcome to continue and work with the ClearFog GT 8K platform. The platform details and information can be found [here](#), and samples can be purchased [here](#).

Discontinued Products
