

# ClearFog CX

## End of Life Announcement

Dear Customer,

We hereby inform you that on **April 7th 2019** we intend to discontinue the development, production and supply of the *ClearFog CX* carrier. Due to a change in the projected product strategy by Marvell Semiconductors, SolidRun has decided to alter its product strategy, discontinue CEx7 A8040 and so also discontinue the ClearFog CX carrier board designed for it, focusing instead on development of other products.

Customers who are interested a carrier board for the COM Express type 7 form factor, are welcome to learn more about our LX2160A series and the Mini ITX form factor carrier that is planned for it. The platform details and information can be found [here](#), and samples will be available in the near future.

### Discontinued Products
