

i.MX 8XLITE SOM

2 x Arm Cortex-A35, 1 x Cortex-M4F, 1.2GHz

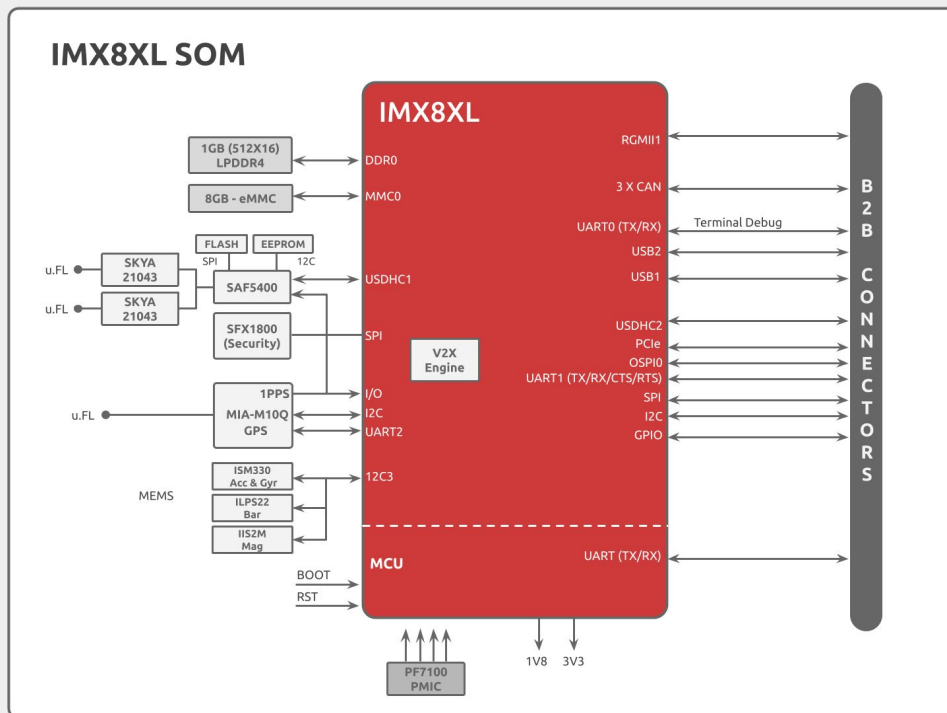

NXP i.MX 8XLite Processor System on Module

- Built-in V2X and V2I capabilities
- Supports Ethernet, CAN, PCIe, and USB 2.0 for advanced communications
- Small form factor and low power consumption

		i.MX 8XLite Dual
CPU Details	CPU Name	NXP i.MX 8XLite
	CPU Type	2 x Cortex A35 1 x Cortex M4F
	CPU Speed	1.2GHz Industrial
RAM	Memory & Storage	1GB LPDDR4 with inline ECC
	Internal Storage	8GB eMMC
	External Storage Support	NOR-Flash SD USB 2.0 PCIe-SSD
Networking	Ethernet	RGMII
	Wireless	DSRC (V2X) Single modem Dual antenna NXP SAF5400 GNSS U-blox M10 HSM NXP SFX1800
Connectivity	USB 2.0	2
	PCIe	1
	I2C	2
	SPI	2
	UART	2
	GPIO	✓
	PWM	✓
	SD/MMC	1
	JTAG	Test point header
OS Support	Embedded Linux	Linux
	Size	47 x 30 mm
Physical	Interface	2 x Hirose DF40 connectors MateAX RF connector 4 ports
	Power	Main Voltage I/O Voltage
Environment	Temperature	Industrial: -40°C to 85°C Industrial Extended: -40°C to 105°C
	Humidity	Humidity (non-condensing): 10% – 90%
